Sketches For Club Murals Near Finish, Says McClure

Muriel Chamberlain Considers Plans Submitted By Students

Half-Scale Sketches to Be Displayed in Club Next Month

Final sketches of the murals to be painted in the Student Club will be completed within the next two weeks, according to Harlan McClure, chairman of the Student Council committee which is working with the Division of Fine Arts on the project.

Designs will be approved by Muriel Chamberlain, graduate student in the Division of Fine Arts, who is now considering several plans presented by students.

Completed sketches for the entire project will then be drawn in half-scale, and hung in the club next month, McClure said. Actual painting will not begin until later, but will be completed during the next semester.

The murals are sponsored by the Student Council, which has made an appropriation of $10 to start preliminary work. This action was taken at a Council meeting last November, when a committee headed by McClure and including Katherine Black and William Ferguson, was appointed to consider the subject matter of the murals.

At that time, McClure stated, it seemed probable that extra-curricular activities, the history of the University, and the history of education were the most likely subjects for the murals. However, no definite topics were assigned, the entire project being left in the hands of the Fine Arts Division.

Work on the murals was assumed voluntarily by arts students, who worked out plans in their spare time. Plans were first drawn in blue-print, on a small scale, and turned over to Miss Chamberlain, who has been coordinating the sketches into a final design.

After the exhibit of half-size cartoons in the Student Club, painting will be started. All art students will assist in the work, which will take from four to eight weeks to complete.

Greek Council To Print Song

Waring Orchestration May Be Published By Fraternity Group

Plans for the printing and publishing of 1,000 copies of the school song "Buff and Blue" were contemplated by the Interfraternity Council last week. It is planned to use a 16-piece orchestration of the song made by Fred Waring, which he has broadcast over his program several times.

Eugene Sweeney, author of the "Buff and Blue" sang the song to Fred Waring on the Palace stage several years ago, and Waring in return gave him a 16-piece orchestration of the song. Two years ago Sweeney sent the song to the University. No action toward the printing and publishing of the song has taken place up to this time.

The Interfraternity Council hopes to send copies of the orchestration to the leading orchestras and colleges in the United States.

Plans call for a two-day "interfraternity seminar" to be held sometime in the spring. University officials, prominent men from the National Interfraternity Council, and leaders in various fraternities will speak the first day, and the second day will be spent in the discussion of various fraternity problems. The fraternities will make these questions in different groups. The plans are, however, in formation and more information of the seminar will be discussed later in the year.

'Striking Thirteen' Is Chapel Topic

"Striking Thirteen" will be the theme of chapel exercises in Corcoran 10 Friday at 12:10 p. m., Dean William C. Ruediger announces. He will preside over the exercises.

Following singing of hymns by the audience, Dean Ruediger will read informally, and without extended comment, selections from Socrates, Plato, St. Paul, and the Gospels.

Former Students Return As U. S. Representatives

Five former students of the University, namely: Stephen W. Gambrill, LL.B., '95, LL.M., '96, Democrat of the Fifth Maryland District; Arthur H. Greenwood, LL.M., '25, Democrat of the Seventh Indiana District; Donald H. McLean, LL.B., '06, Republican of the Sixth New Jersey District; Earl C. Michener, LL.B., '03, Republican of the Second Michigan District, and Francis E. Walter, A.B., '19, Democrat of the Twenty-first Pennsylvania District, were again returned to Washington, via the House of Representatives, by the members of their respective constituencies in the last national election.

Gamma Eta Zeta Inducts M. Hart, Newspaperwoman

Courtesy of The Herald
Miss Margaret Hart

Miss Margaret Hart, president of the Newspaper Women's Club of the District of Columbia and Washington society editor of the New York Herald-Tribune, will be inducted as an honorary member of Gamma Eta Zeta, women's honorary journalistic sorority on Sunday evening.

Along with Miss Hart, who also holds the position of assistant society editor of The Star, six student pledges will be initiated into the honorary group. The students to be so honored are Margaret Clark, Elisabeth Coale, Terrie Egan, Elizabeth Hartung, Bertha Lockhart, and Eldridge Loeffler. The initiation will be held in the Phi Mu sorority rooms Sunday at 6:30 p.m.

A banquet in nonor of the initiates will follow the initiation ceremony. It will be held at Avignone Freres, 1777 Columbia Road. At the banquet Miss Hart will address the alumnae, the active members and initiates. Plans for the rest of the year will also be discussed.

Center Party Answers Left

Centrists Accept Challenge of Left on Subject of Neutrality

Sunday night the Center Party accepted the challenge of the Left Party to debate the neutrality question in the near future.

Lloyd Rogers, chairman of the Center Party, stated that "although the Left Party could have chosen a subject more in keeping with their fundamental principles, the Center Party will be glad to discuss any issue presented."

In retaliation, Donald Cooper of the Lefts, stated that the subject of neutrality is a pertinent one in view of the present international situation.

At a caucus meeting held last Wednesday, the Right Party decided to publish an official organ. Appointments to the editorial board included Earl Eisenhart, Frank Brisbois, John Kline, and Bennett Willis.

Abbott Simon, a representative of the American Youth Congress, spoke on the American Youth Act at the Left Party meeting last Wednesday. The act provides for a minimum appropriation of $500,000,000 to be used in establishing public works and cultural projects for the benefit of youths between the ages of 16 and 25.

The American Youth Congress and the Left Party are supporting this act. It favors a 50c an hour minimum wage or the trade union wage in that vicinity, whichever is the higher. Maximum hours per week shall be 40, with pay not less than $15 per week.

Edward Keating, editor of "Labor," the publication of the railroad brotherhoods, and former Congressman from Colorado, told Centrists and others who attended the Center caucus Friday night, that complete organization of labor was the most imoortant step in the solution of our distribution difficulties.

Keating, who in his days in Congress championed a minimum wage law for women and a child labor

(See Center, Page 4)

Final Figures Show Success Of Food Drive

Contributions, Led By Tau Kappa Epsilon, Total $524.96

Kappa Delta Leads Sorority Contributors With $43.57

Final tabulations having now been made, the Food Drive finds that its campaign has been even more successful than at first reported. According to Sis Porter and I. Ray Howard, co-directors of the drive, the total of food and money collected amounted to $524.96.

Kappa Delta, with a contribution of $43.57, topped the social sorority group and was the third highest contributor to the drive. Tau Kappa Epsilon was the highest contributor from the standpoint of both quota and amount, contributing $52. The silver cup, awarded according to quota percentage, will be presented to the T.K.E.s at the Interfraternity Prom in March. The Progressive Party, with a contribution of $47.58, was the second highest group on the campus.

Money Given Largely

In contrast to former years, contributions of money, emphasized by this year's Food Drive, were of a much larger proportion to the whole than formerly. This fact facilitated the work of the committee in making up its baskets and therefore proved to be much more advantageous.

The following is a tabulation of the collections from the various contributors to the drive. The alloted quotas, having been used as

(See Food Drive, Page 4)

Cox Suggests School Trade

Professor Urges Study of Spanish As International Aid

The exchange of high school students among the American nations was urged last week by George Howland Cox, director of the Center of Inter-American Studies, as a means of furthering Inter-American understanding.

Speaking at noon at the Washington-Lee High School, Arlington, he pointed out that the students of the north and the students of the south will one day be called upon to carry on Pan-American affairs. He said: "You, the pupils of today, have a definite role to play in the international program of the Western Hemisphere. Fit yourselves to play your part by studying Latin-American history and by learning the Spanish language. More than 100,000,000 people of the southern continent have problems with which you should become conversant."

He suggested that students here correspond with students in the 20 southern countries, stating that the exchange of letters would originate many ideas for student exchange. "The clearer understanding you have of the Spanish language, the better able will you be to encourage Latin-American students to come north to enroll in our schools," he said.

Douglas Butturff Returns From Maryland Hospital

Douglas M. Butturff, who was injured in an automobile accident near Rockville on New Year's Eve, was released from the Montgomery County Hospital at Olney Sunday and returned to the Sigma Chi house, where he lives.

His recovery from injuries received in the accident was much faster than physicians had expected and he was discharged several days ahead of schedule.

He planned to return to classes today and will be back at his work next Monday.

'Stand By!'; Green Light Cues In Broadcast Play

By Frank Ford Burnet

"Stand by!"

A green light flashes in the ceiling of WMAL's broadcasting studio. "Satan's Headache" was on the air! Ed Stevlingson, the student announcer, introduced the story:

"...The action opens in the inner offices of Henry Faust... The buzzer on the switchboard rings and the receptionist glides into action." Bill Ferguson, student sound technician, operated the buzzer, and Flora Blumenthal, as Miss Peters, spoke the first words:

"Mr. Faust's office, good morning."

This was Miss Blumenthal's first radio appearance with the Players, as it was for several other members of the cast, but throughout the half-hour not a single voice broke, not a single bad performance marred a fast-moving, well-paced farce.

Technician Kept Busy

The sound technician was kept busy operating the sound machine and supervising three assistants. Besides the music which filled in between "scenes," there were machine guns, steam hammers and other noises which slowly gave "Satan" the biggest "headache" of his life. Other sounds were made by men walking across a small platform; a door was opened and shut frequently; a girl operated a muffled typewriter; even a balloon was popped—all according to the script.

The play moved faster near the end. Satan, bellowing and snarling at first, was reduced to whimpering and moaning as the energetic Faust applied his business methods in Hades. Faust finally left the beaten Satan to run his own "empire," and breezed back into his office on earth.

There he found things slightly duller. First thing he demanded was:

"More Heat"

"Tell them to turn on a little more heat, will you?"

Three more plays will be broadcast during the coming semester. Interested students should watch The Hatchet for announcement of try-outs, which will be open to all registered students. Appearance in two radio shows will entitle a student to associate membership in Cue and Curtain. Appearance in six plays will qualify a student for active membership.

Colonials Defeat Elon, 55-24; Sixth Straight Victory

Playing before a packed house in the "Tin Tabernacle" last night, the Colonials passed another milestone toward the goal of an undefeated season by trouncing a strong Elon College five by a score of 55 to 24 for their sixth straight win.

The Colonials led at half time, 29-12, and the reserves played the second half, showing a much improved game over their previous showings. Bob Faris led the scoring by looping in 13 markers, followed by Bruce Borum with eight points. Tom O'Brien scored seven and Milt Schonfeld, seven. Dave Osborne, greatly improved guard, tossed in two field goals and a foul for five points.

The varsity played only the first few minutes, rolling up an early lead with a swift attack that was too much for the North Carolineans. Jack Butterworth scored four points early and then went out in favor of Bruce Borum. Hal Kiesel was in only long enough to hoop two foul shots and then he joined the parade to the bench as the reserves had a field day.

Ruediger States Inaugural Day Is Students' Holiday

Students of the University will observe a formal holiday Jan. 20, inauguration day. Inaugural ceremonies have formerly been held March 4, but due to the twentieth constitutional amendment the date has been changed. Provost William C. Ruediger issued the following statement to The Hatchet:

"Inauguration Day, which this year falls on Wednesday, Jan. 20, will be a holiday in all divisions of the University. Washington is unique in respect to this holiday, for the President of the United States is inaugurated only in the District of Columbia. Education and business in other places may proceed as usual, but in the District of Columbia this would be difficult. The day, however, is not lost to education; it is redirected to civic realities of a basic nature."

Columnist Speaks To Newman Club

The Rev. Raymond A. McGowan, assistant director of the social action department of the National Catholic Welfare Conference, and a columnist for the Scripps-Howard newspapers, will discuss "The Influence of the Committee for Industrial Organization on the Present Labor Movement," at a meeting of the Newman Club on Thursday in D-103.

The Newman Club will receive communion in a body at the Immaculate Conception Church at 8th and M Sts., Sunday, at 9 a. m., after which a communion breakfast will be served at the Mayflower Hotel. Rev. William Stricker, a graduate of the American College in Rome, will address the group.

Beauty Photos Due Jan. 15

Friday is the last date when members of sororities may be photographed in order to be counted in the 80 per cent of each sorority's active and pledge membership necessary for entering a candidate in the contest. All the sororities which have complied with the 80 per cent requirement must turn in their beauty contest entrant at the Publications Office, 2101 G St. by 1 p. m. Saturday. Entrance requirements will be checked on by the board over the week-end and names of those who qualify will appear next week.

In addition to entrants submitted by the sororities, Casson's will select others, disregarding sorority affiliation, who in its opinion should be among those in the contest. This will give a fair chance to those not affiliated with social sororities, professional sororities, with an active pledge membership of 12 or more are eligible to enter a candidate in the contest, subject to the 80 per cent requirement.

Organizations which have failed to reserve space in the Cherry Tree should fill in their contracts and turn them in at the Publications Office immediately, the board has stated.

Seniors and members of activities, organizations, fraternities and sororities should be photographed before final exams. The deadline will be immediately afterwards.

Gamma Beta Chapter Of Theta Tau Meets

Gamma Beta Chapter of Theta Tau, national professional engineering fraternity, will hold its regular monthly meeting tomorrow at 7 p.m. in D-207.

The six men initiated at the Cosmos Club in December, namely: Kenneth R. Sommer, Frantz Rarey, Karl Vartia, Max Christopher, and John H. Rixse, Jr., will assist in planning professional and social activities for the coming year.

Smith, '32, Named Alumni Secretary For University

Lester A. Smith

Appointment of Lester A. Smith, '32, as alumni secretary of the University was announced last week by President Cloyd H. Marvin.

He will take office about Jan. 15. He will work with the administration and the alumni officers in carrying into effect the University's enlarged alumni program.

This program was inaugurated by the University and the General Alumni Association last spring, at which time President Marvin drafted Prof. Norman B. Ames, of the electrical engineering department, to serve as assistant to the president to aid in its development. With the successful accomplishment of this purpose, and with the selection of Smith to be alumni secretary, Professor Ames will return to his research and teaching.

Mr. Smith has been prominent in alumni affairs for some time past. He was one of the organizers of the Library Science Alumni Association, of which he has been president since 1934, and has served for the past two years on the executive committee of the General Alumni Association. He has been on the staff of the Army Medical Library. He holds the degrees of Bachelor of Arts and Master of Arts in Library Science from the University.

'Bureaucracy, Hectic Week,' Delay Council

Howell Will Head Committee on Constitution Interpretation

By John Daugherty

The main business of the Student Council was delayed two weeks by what Charles Kiefer, Independent representative, termed as "bureaucracy" and "two hectic weeks."

The "bureaucracy" was the coordinating committee report left in President Ross Pope's bureau, and the "two hectic weeks" which Kiefer spoke of were his first two weeks of marriage. Kiefer requested that he "did not want an investigating committee appointed" to inquire into the past two weeks.

Robert Howell, representative of publications, was appointed chairman of a constitution committee to revise and interpret the present constitution. Howell will probably recommend changes in the constitution to enlarge its program and give it more power. He proposed several changes, as given in his column in The Hatchet of last May.

The coordinating committee's report as to the coordinating of activities is one of the major problems of the present council. This report will be the main subject for discussion at the next meeting. It is expected that the council will suggest a change in the present status of activities and also that there be a closer understanding between the administration and the different activities.

The student directory committee's headquarters will be on the second floor of Columbian House. This committee will submit a report in the future as to the advisability of printing a student directory.

The council voted to give a dance on Feb. 5 following a motion made by Paul Brogren, treasurer to that effect.

Three Sigs to Work On Chapter Publication

Douglas Butturff, Charles Hallam, and John Southmayd were appointed last night as associate editors of the Capital Sig, chapter publication of the local Sigma Chi chapter, by Edward Kemper, president of the chapter.

They will assist Robert Howell, editor of the Capital Sig, in publication of the magazine, which will probably be published in the spring. It will be the first publication of the chapter since 1932.

O'Connor Elected Head Of Alpha Chi Sigma

Bob O'Connor has been elected master alchemist of Alpha Chi Sigma, professional chemical fraternity, to serve during the next semester.

Other officers elected were Robert Brasted, vice master alchemist; William Bailey, master of ceremonies; Chester Pope, recorder; Guy Ervinfi treasurer; Howard Love, reporter; William Schlect, alumni secretary; and Dr. Charles Naeser, faculty adviser.

Masonic Club Fetes Masons Next Friday

Grand Master to Address Student, Faculty, and Alumni Members

The Masonic Club will give an informal dinner to all students, alumni, and faculty Masons Friday at the Harrington Hotel, at 8 p.m.

Paul B. Cromelin, grand master of Masons in the District, will extend fraternal greetings to the club. L. H. Troutman, past president of the National League of Masonic Clubs, will also speak. He is expected to welcome the club to membership in the league.

Reservations may be made in Dean Warren R. West's office in Building D.

The campus organization for Masons was recognized early this year after being inactive for several years. It's application for reinstatement to the National League was accepted last month, and it was chartered as Club No. 232, according to James Fulton, president.

In a report to the Student Life Committee filed last week, the secretary-treasurer listed an active, paid membership of 40. A new constitution, based on that formerly used by the club, was also filed last week.

A committee headed by Fulton is now laying plans for the annual Cherry Blossom sale on George Washington's Birthday, proceeds of which go to the educational foundation of the National League. Out of this fund the league has contributed $7,000 annually since 1928 to the School of Government.

Librarian Attends Columbian Library School Exercises

John Russell Mason, University librarian, attended exercises at Columbia University last Tuesday marking the fiftieth anniversary of the opening of the School of Library Economy.

Nicholas Murray Butler, president of Columbia, in his address to the meeting, recalled the lukewarm attitude of the trustees toward the pioneer project. It meant that women would have to be permitted on the campus, a most undesirable state of affairs at that time. It was finally through the persistence of Melvil Dewey, then Butler recalled, that the library school, the first in the world, was started.

Following the exercises, there was a dinner of the Association of the Columbia School of Library Service and Its Predecessors, of which Mason is treasurer.

Debaters Meet Thursday

The men's debate squad will meet Thursday night in D-416 at 8:15 p. m. The team will discuss the question, "Resolved: That Congress should be empowered to fix minimum wages and maximum hours of industry."

Labor Committee's Report Is First Without Dissent

For the first time in Union history there will be no minority report when the Labor committee bill is reported out by Chairman Larry Cox (C) tomorrow at 8:15 p.m. in Stockton 30.

Although all parties had apparently agreed upon this compromise bill, the Right party Sunday night disclosed the fact that their decision may be subject to revocation at a caucus immediately preceding the Union meeting tomorrow.

The labor committee bill is designed along humanitarian lines, without attempting to set up minimum wages for specific industries or in other ways simulating the N. R. A. codes. Union labor, as such, was disregarded in the light of the greater importance of the need for humanitarian legislation. Collective bargaining was upheld by the committee in discussion, but there was slight mention of it in the bill. Maximum hours were set up in 4 different classes: 36 hours a week for heavy type of labor (craftsmen, miners, structural steel workers); 48 hours a week for light labor (household servants, elevators, bell hops); 55 hours a week (farm and agricultural workers); 42 hours a week for average type of labor (store clerks, salesmen, office employees, professional, etc.).

Employers and employees may settle any difficulties that may arise by appealing to appellate boards,

(See Union, Page 4)

Parking Lot Soon Ready For Students, Faculty, Free

Both Parties' Platforms Promised Such Action

350 Cars Will Be Accommodated by Lot at 23rd and G Sts.

Early this morning, workmen started grading the lot on the northeast corner of 23rd and G Sts., which, on its completion at the end of next week, will afford free, all-day parking facilities for about 350 cars of students and faculty members.

Ross Pope, president of the Student Council, announced Sunday that parking space for students, a subject which has been a political football in student politics for more than a year, will be partly solved when the preparation of the lot, which was recently purchased by the University as a sight for the proposed gymnasium, has been leveled and equipped for a temporary parking lot.

The lot, which extends from 23rd St. almost to 22nd, takes up about half the block, and Charles E. Merry, in charge of buildings and grounds estimates that it would afford parking facilities for about 350 cars.

Under Council Supervision

The supervision of the lot, Pope said, will be under the Student Council. The attendants, who will be on hand from 7:30 a. m. to 7:30 p. m. will be N. Y. A. workers. Pope said that the project should be completed by the end of next week, that is, in time for final examinations, but that it would be completest at the very latest, in time for the beginning of next semester.

The only requirement which those wishing to park in the lot will have to meet will be to prove that they are students by showing their Student Activities books. There will be special identification cards for faculty members. This will be done in order to keep cars of those who are not connected with the University off the lot.

Problem Old One

Though the lot which is to be used for parking was procured a month ago, and it was recently turned over to the Student Council for parking purposes until it might be needed for the erection of the field house, the project of parking space for students has been before the University for some time. The first meeting of last year's Service-controlled Student Council resolved that something should be done about it, and both major student political parties indorsed it in the student elections of last spring.

In addition to the parking lot, Pope said that a survey would soon be undertaken by a committee of the Student Council to discover, if possible, the percentage of the cars which are parked in this immediate neighborhood, belonging to people connected with the University. The survey will be carried on with a view to securing more parking space for the exclusive use of University students and faculty.

Student Given A. S. C. E. Post

Edmonston Elected Secretary of Maryland-District Chapter

T. Ritchie Edmonston, chairman of the executive committee of the Conference of the Maryland-District of Columbia student chapter of the American Society of Civil Engineers, was elected secretary of that organization for the coming year, when it held its first meeting of the year here recently.

Plans for the second annual spring conference to be held at Johns Hopkins University in Baltimore during April were discussed.

As provided in the articles of the constitution of the organization, two delegates from each participating university were present at the meeting. Those from George Washington University were Edmonston and Thomas J. Adams.

Others serving on the committee were as follows: George E. Gilbert, University of Maryland; Robert A. Jackson, University of Maryland, chairman; Edward L. Roney, Johns Hopkins University; John S. Wright, Johns Hopkins University; Joseph F. Parkhill, Catholic University of America; Joseph P. Jordan, Catholic University of America.

Hatchet Corrects Error

Correct hours of the new Social Science Library are:

Monday through Friday: 8:45 a. m. to 10:30 p. m.

Saturday, 8:45 a. m. to 7 p. m.

Sunday, 2 to 6 p. m.

During the pre-exam and exam period, the two science libraries, C-305 and Corcoran 16, will also be open on Sundays from 2 to 6 p. m., Jan. 17, 24, and 31.

The hours were incorrectly stated in The Hatchet last week.

Pres. Marvin's Mother Ill

President Cloyd H. Marvin left Washington Saturday, Jan. 9, for Los Angeles, Calif., where he will visit his mother, who is said to be seriously ill.

A Job Well Done

WITH the announcement of the selection of Lester A. Smith, Class '32 to succeed Prof. Norman B. Ames as secretary to the Alumni Association, we wish to extend sincere appreciation to our good friend Professor Ames, who will now return to his high calling of teaching. Besides his success in furthering the organization of the alumni, and aiding in a major part in staging one of the greatest homecoming celebrations ever held at the University, he has constantly gone out of his way almost daily to make friends with a student and to offer to help with many student problems. We also hope that Mr. Smith will be not only successful in his endeavor as alumni secretary, but that he will put forth every effort to be as thoughtful and helpful to the student as has Professor Ames.

Advocated Parking Realized

THE parking lot which The Hatchet advocated editorially and by cartoon some months ago is now about to be realized. The Administration is to be highly commended for its immediate and successful effort to provide space for automobiles of students and faculty. The service that this lot will render is almost invaluable to students arriving on time to early morning and late afternoon classes. As The Hatchet suggested sometime ago also, that this problem was one for the Student Council to help to solve, and its president did do everything within his scope as president of the Council to foster it, we now compliment him on his efforts.

Another Fact Favoring Parties

SINCE the definite formation of the two campus major political parties, formed primarily for the purpose of participating in Student Council elections, much comment has been made favoring and denouncing such party organizations as regards the promotion of harmony and good fellowship on campus. Although one or two facts as pointed out opposing the existence of these political groups may be well taken, the arguments favoring their activity outweigh those opposed. The recent contribution of the Progressive Party of $47.58 to the Food Drive, as coming directly from the party, is an additional fact which tends to substantiate the argument presented sometime ago in The Hatchet in defense of the party system for Council elections. Even though this contribution on the part of the Progressive Party was made up of individual gifts from campus organizations who also contributed to the Drive in their own names, few if any of them, would have given as much as the sum of the donations they did make through the two separate channels, had it not been for the sake of the party and their affiliation with it.

Calisthenic Facilities Needed

WHEN the new gymnasium or field house, the future plans for which the Administration confirmed sometime ago, is erected, it would be very advantageous to part-time students, as well as probably to full-time students, if arrangements could be included in the building plans to provide physical recreational facilities for students. Full-time students may not appreciate such facilities as they are required to take physical education classes, and many of them to devote their physical energies along varsity and intramural sports. But many of the part-time students, who from necessity work all day indoors for a livelihood, have so little time left in a day after working and attending classes, that they have open to them almost no means of physical exercise except, perhaps walking. Students might avail themselves of a gym by joining the "Y". But most part-time students must go in the late afternoon direct from work to class, and at the conclusion of class periods and a subsequent bite to eat, the hour at which the "Y" gym closes is nearly at hand.

It is true that the installation of calisthenic equipment and probably lockers and small dressing benches for this use would require a considerable expenditure. To help repay the University for such an appropriation, if it should be made, a semester fee might be levied, on those wishing to exercise in the gym, proportionate to that charged for the same length of time by the "'Y". If the University is skeptical of this suggestion because of a fear that too few part-time students would desire to avail themselves of calisthenic facilities, the Administration could send out brief inquiry blanks with tuition statement, and thereby determine the sentiment of the student body.

A half hour of calisthenics for even two or three evenings a week, and although without class supervision, will go far to aid the student to keep physically fit, ultimately resulting in greater mental alertness, so necessary to a successful student. Of course some part-time students would not be interested in this suggestion at all, and while but a small percentage of the rest of them would be able to arrange their time to fit a regular set calisthenic schedule, it is felt that a large percentage of part-time students would realize their need for such exercise and would take advantage of the opportunity if it could be offered.

Comments by on Events

ROBERT HOWELL

Student Council Wants More Results for Efforts of Activities

IF PLANS of Ross Pope, president of the Student Council, and a committee of council members he has appointed are put into effect, there may be widespread changes in the activity set-up here within the next year or so.

The committee proposes a thorough survey of activities, their purposes and scopes, with a view to defining these in such a way that overlapping of functions and duplication of effort may be eliminated.

It realizes that a gargantuan task confronts it, one that may take years to complete, so it does not expect its aim to be reached overnight.

Goal of the committee is somewhat two-fold. It hopes to coordinate efforts and functions of the dozens of activities on the campus, many of which are engaged in endeavors similar to those of another group, with a view to getting the greatest measure of return for students as a whole from these efforts. With this in mind, the committee expects to recommend combinations of groups in a number of instances where parallel aims are pursued, and will suggest changes in policy in other instances where such is felt to be desirable.

Its second aim will be to make students as a whole better informed as to what is going on at the University and as to what facilities for participation are available, thereby increasing the interest and participation of the many students who now take little or no part in University life outside the classroom.

Committee members feel that the average student now has no idea when a club that might interest him will meet, or when a debate of interest will be held, or for that matter, when a Cue and Curtain play will be presented, and this is one major situation the committee hopes to alleviate, if not remedy entirely.

No small item in the committee's plan will be an effort to make The Hatchet more widely read, but the ace-in-the-hole in its effort to make students better informed on events will be a big calendar bulletin board, prominently located on the campus, which will be corrected daily to show what events are scheduled for each day.

A suggested location for this board, which is reported to meet with the approval of University authorities, is at 20th and G Sts. It would be operated by The Hatchet or the council, probably the paper, as it would have better access to the information.

The survey of activities will be campus-wide in the broadest sense. No activities or organizations, other than national social groups, will be excepted from the scrutiny of the committee. Officers and members of organizations will be called on for assistance and information as to methods of operation in their respective groups, and suggestions for coordination with similar organizations. It is doubtful if open hearings will be held, as these might easily resolve themselves into theatrical stunts, but considerable testimony from officers of clubs will be needed. Much basic information will be secured through questionnaires, but for the fine points personal interviews will be needed.

Even professional and departmental groups will be included in the committee's survey, as it is felt that these often merely scratch the surface in their fields when they have an opportunity for real service. And what the committee regards as even more undesirable is the fact that often these groups are doing good work, securing good speakers, but are not having the support they deserve from students, simply because the students are not being adequately informed as to what the activity is doing.

The plan will likely necessitate changing the council's constitution to make legal the work of the council through this committee. Apparently with this in mind, Pope last week appointed me as chairman of a committee on revision and interpretation of the constitution, and appointed with me on this committee Jay Samuel, of the Junior College, and Ed Thomas, of the School of Engineering. We will probably work closely with the larger committee to bring such changes as are needed. These changes will, of course, be subject to approval of the University Administration, which, it is believed, can be secured for many desirable changes.

Frequent criticisms from students will be essential to the success of this committee on reorganization, as it may be called for want of a better name. For much the same reason that the committee will seek the counsel and advice of organization officers and members, it will solicit and welcome frequent and frank criticism from all students.

Criticism from students not in activities will be particularly welcome, since views of this group will be of material assistance in building a program to reach them. These criticisms might be in the form of letters to the editor of The Hatchet, in which case other students would benefit and be better informed by suggestions contained therein. They might consist of letters to the committee; of speaking to committee members, personally; or of appearing before the council meeting and stating your views there. In any event, the criticism will be welcome and appreciated.

Head of the committee is dynamic Charles Kiefer, who during the past three years has been instrumental in establishment and promotion of the Union and the Men's Independent Organization, the latter of which he represents on the council. He already has roughly outlined the work before the committee with a view to getting it underway soon. With him on the committee are Pope, Paul Brogren, treasurer of the council, Margaret Graves, of women's athletics, and myself.

Ere many weeks the fruits of the labors of this committee will be becoming slowly evident, and when they do I hope it results in more successful operation for all campus organizations, and wider participation by students at large.

It's Delerious, It's Dilemma, It's De Limit Rarey

From Today's Confusion

Affiliation With Cue and Curtain Makes Radio Players' Future Look Bright.

By Margaret Davis

With last Saturday's performance of "Satan's Headache," Radio Players as recently reorganized under Cue and Curtain went on the air for the first time. It is not our purpose here to tell what a howling success the performance was, although the general consensus of opinion seems to be not at all adverse. We are rather interested in the aspect of Radio Players as now organized under Cue and Curtain, and it looks good to us.

Davis

Radio Players existed last year, put on the same type of plays, plays written by members of the creative writing class, even the casts included much of the same personnel which has been taking part this year. What then is the advantage that it will gain from its affiliation with Cue and Curtain?

Primarily, we would say permanency. Up until this year, the fate and responsibility of the radio dramas have hung upon the actions of one person, Mr. Douglas Bement, professor of English. Mr. Bement, distinguished and known nationally for his teaching and writing concerning the short story and other forms of creative writing, has incorporated the writing of radio scripts into the course in creative writing. Since that time he has seen to the selecting of dramas to be used, or to the writing of suitable scripts for special occasions, he has arranged for time on radio programs, he has cast skits which called for a cast of 10 or 15 from groups of aspirants who numbered three and four times that many. He has directed the plays and skits. He has been the life and soul and breath of what has been termed the George Washington radio group.

People who have had neither the time nor the physical appearance required for participation in drama of the legitimate stage have been able to express themselves dramatically over the air because Professor Bement has given unstintingly of his time. Writers have been able to put their work to use. The University has been advertised by these programs.

Now that Radio Players have become affiliated with Cue and Curtain, a self-perpetuating body which is one of the organizations that has been connected with the University long enough to be called substantial if not traditional, we can feel assured that the work which Mr. Bement has begun will be continued. The increased activities of Cue and Curtain this year promise a long, strong organization with both the personnel and the financial backing necessary to keep George Washington on the air.

Noratin' 'round with NORVELLE

Are you cramming for exams
As the end draws near?
'Cause if you're not, we'll be seeing you
In the same old class next year. . . .
—The Fac.

Pleasant thought. . . .

Add Similes

As exhilirating as a dead fish, or
One of Godfrey's programs. . . .
Little Junior, momma's man,
Kicked his poppa in the pan.
Momma chortled, "That's a whoppa,
Junior pouring the boots to poppa!"

It all happened...
The other night...
In a psych class...
Where I was sitting...
Drinking in...
Every word...
Of Prof. Foley's...
Lecture.
He was...,
Holding forth...
At great length...
On the infinitesimal...
Vicissitudes of...
The Terrestial...
Existence...
Or something...,
About mazes...
Or something...
Yes, that was it...
Mazes.
Next to me...
There lounged...
A dizzy young...
Fluff...
Sucking her pencil...
And wrestling with...
Morpheus.
Suddenly she...
Whispered...
Aren't mazes amazing?
Amazed, I...
Only leered...
And kept on...
Listening.
But she persisted...
Wouldn't it...
Amaze one if they...
Built a maze...
In a field...
Of maize?
Baffled, I gritted...
What's your name?
Mazie, she tittered.
I thank you.

Cooper Extracts Needle From Appendix Region

Beware of the Hatchet photographer, Joe Cooper! He's running Thurston, the magician, a close second. Recently he walked in the Hatchet office, and just as he was starting out to take some pictures, he felt something sticking him in his side.

As Joe is an ardent Centrist, he thought that it was perhaps his party pin. He didn't raise a howl, but slowly set out to get at the root of the trouble. Zounds! Wonder of wonders! He pulls out a surgical needle from the region of his appendix!

Reporter Cites Local Scribes On Glee Club

By Edmund Browning

"THE piece de resistance was the Choral Phantasy heard for the first time locally", said Alice Eversman, music commentator for The Evening Star on Dec. 14, the day after the Glee Clubs had sung the Choral Phantasy with Harold Bauer and the National Symphony Orchestra.

Miss Eversman continued, "The singers from George Washington University, who had been excellently prepared by their director, Dr. Robert H. Harmon, were vocally powerful enough to arrest attention above the loudest fortissimo of orchestra and piano, and their clear fresh voices and well-balanced ensemble were a pleasure to hear."

Of the whole Beethoven program, in which Colonial singers took part, the Washington Post said, "It was a concert in which the tension of interest was continuous and swept to a crest in the rousing climax of instrumental and vocal forces wherein the well-trained Glee Clubs of George Washington University had their substantial part."

Of the Phantasy, in which the Glee Clubs took part, the commentator for the Daily News said, "The team work on the phantasy was commendable, the various sections elastic, adaptable, maintaining the spontaneous spirit of the piece." On the other hand, Nathan Weinberg, writing in the Herald, raised the only dissenting voice when he said of the Phantasy, after attempting an evaluation of the work itself, "* * * it was sung rather uncertainly."

The Times, sister publication of the Herald, agreed with the majority of Washington papers in praising the work of the clubs, saying that their performance bespoke thorough preparation.

Letters to the Editor

Band Improves Game

Editor:

I am no red-hot sports fan—just a luke-warmer, or perhaps a bit more but I do break down and take in an athletic event once in a while. I must admit, also, that although I am twice an alumnus, I have never gone rabid over G. W. U.'s athletic prowess. But I have my moments of weakness, so I took my wife and a party of friends to the G. W. U.-Nebraska basketball game last night. It griped me not a little to find that the price had been doubled for the occasion but we went on in anyway. A listless scattering of students and grads were paying but little attention to the start of the Tech-Freshmen game which proceeded to develop into a very fair game in spite of funereal atmosphere. By the time that game was over the place was fairly well filled and several of us were exchanging sarcastic cracks about the lone saxaphonist and two or three assorted horns which then comprised the band. Accretions came quickly, however, the pitch of the crowd rose from low B flat several octaves, and when that big red team from the West ran onto the floor and the band struck up a march with a blast so powerful as to lift your hat, spines tingled and the whole crowd arose with a great spontaneous cheer.

The game was on, and while it was not close, it was well played on both sides. The so-called cheer leaders waved their horns from one end of the gym to the other as they spoke so that any given section could get only one or two mumbled words of instructions, but that is the way they have always done. The teams chased back and forth as usual, committed fouls as average teams do, and were penalized in the ordinary manner. It was just another basketball game save for the fact that the visitors had a name. But there was one feature that was unusual. That was the little hocus pocus between halves. Not much to it instrinsically, but it made all the difference between just another game and a show. The band, the community "sing," the cornet duo-soloist (or was it a solo-duet), and the baton of Maestro Brusiloff made one forget pet grouches, to feel like living again. Maybe I am unique, but I liked it, and who knows?—I might come again some time. Very truly yours,

Edwin M. Thomas.

Other Campi

Head Man

Joe: "If it wasn't for me, you'd be the biggest fool in this college."
Jim: "Oh, so you're the tops!"
—Utah Chronicle.

No Justice

Why is it, professors can wear
purple ties,
Haphazard haircuts and coats the
wrong size,
Trousers too short and the color
scheme vile,
Yet flunk me in English because of
my style?
—Fordham Ram.

Of all sad words of tongue or pen,
The saddest are these: I've flunked
again. —The Easterner.

BOOKS.. Paul PEARLMAN —1711 G—

Social Season Is Curtailed By Mid-Year Exams

Few Organizations Planning Parties as Semester Nears End

THE close proximity of the end of the semester and the examination period finds the social plans of the various fraternal groups on campus rather sparse, students having evidently forsaken pleasure for the business of studying.

Sigma Phi Epsilon will hold a radio dance at the house Jan. 17.

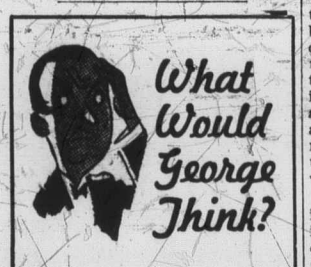

Delta Tau Delta has announced that they plan holding a formal dinner dance at the house during registration.

Kappa Sigma gave their Winter formal at the house Jan. 9. Music was furnished by Carleton Edwards' Orchestra.

Tau Kappa Epsilon celebrated the Founders' Day of the national organization with a banquet at the house. Otto Roepke was the principal speaker of the evening.

Tau Epsilon Phi honored the varsity basketball players at a dance Jan. 9, which was held at the house following the basketball game.

Sigma Chi entertained Sigma Phi Epsilon at a radio dance and pingpong match Jan. 10 at the Sigma Chi house.

By Betty Hutto and Justina Brown

Congratulations, Art Branscombe. Art has a job on the Washington Post. Persistence counts—he's been pursuing the Post for the past year.

Charlie Kiefer was late to Student Council meeting because he had to wash dishes. Charlie, said Ross Pope, was getting henpecked already. Ross left his notes for the meeting in his bureau, and that, said Charlie, in retaliation, was bureaucracy.

Tom McCall tried to become a member of the Fins Club—just one of the mermaids. Wonder what he thought when he pledged TUO?

Bill Hurd and Betty Squire showed a yen towards domesticity at the Kappa Sig dance Saturday night, spending most of the evening in a secluded corner of the Kappa Sig kitchen. Also at the dance was Pug Hay—potential cheerleader with lusty lungs and a megaphone, shouting in the ears of the terpsichoreans.

Bill Cheatham carried his mistletoe (and made use of it) from the Phi Sigma Kappa dance to the Kappa Delta Dance the following night, and he didn't even exclude Mrs. Harris, the K. D. house mother.

Get Frannie Humphrey to tell you about the model horse the Riding Club is using, called "Blondie"—an Apollo of a horse, with hay in his mouth, and a rope tail.

Two of Uncle Sam's stenogs thought the Sigma Nu house was a good-looking rooming house. They knocked on the door and insisted that Bob Westen show them some rooms. However, all the other Sigma Nus rushed to the door, and the girls changed their minds.

The Students' Club should have a soap-box installed by Sylvia Bahar, because that is where she has been airing her communistic views to the world.

Patsy Mayfield showed her unquenchable Southern spirit when Newell Lusby and John Swayze presented her with some sugar cane that came all the way from old Miss.

When Ed Edgerton wants to catch up on his sleeping, he dons his tuxedo, escorts a date to a dance, and to blatant melody of a band and the noise of dancing feet, he blissfully snoozes away. He should be sufficiently rested since the Food Drive dance.

Camp Jobs In Summer Are Open

Two-Hour Classes Open To All Students Over 18

OPPORTUNITY for both men and women to secure summer camp positions will be offered by the University through a special course in camp leadership.

This course, "12 Adventures in Camping", is sponsored by the camp committee of the Washington Council of Social Agencies, and a placement bureau is conducted. Due to the increasing demand for trained counselors by the many new government camp projects and the increase in both private and organization camps, a large percentage of the graduates of this course will be placed. With only a few exceptions all of last year's class received positions.

The classes which will meet on Thursday evenings from 7:30 to 9:30 in Building D are open to all persons 18 years of age and over. The cost will be $8 for students already registered in the University and $10 for all outside persons. A full semester hour of credit will be given to all people enrolled in or planning to receive their degrees from the School of Education.

The classes will be divided into two periods. The first hour will be devoted to lectures given by specialists and well-known personalities of local and national fame in the camping field. Counsellor qualifications, program building, characteristics of the adolescent, health and safety, buildings and equipment, methods of leadership, and the place of camping in education will be among subjects discussed.

The second hour will be divided into sections for specialized study in nature lore, handicraft, and special features and campfire programs.

An extended weekend at a nearby government camp will give the students experience in campcraft activities.

Miss Glasson, National Officer, Inspects Z. T. A.

Miss Marjorie Glasson, the national field inspector of Zeta Tau Alpha, inspected the local chapter during the past week. The alumnae chapter of the organization held a special meeting and reception in honor of Miss Glasson Friday night at which all active members were present.

Saturday night Miss Glasson witnessed the model initiation of Gretchen Hill, and Sunday afternoon the pledging of Irene Rowen. From 4 to 7 p.m. Sunday the active and pledge chapters gave a tea to introduce Miss Glasson to delegates of other sororities on campus.

Sunday night representative meetings of both the active and pledge groups were held for Miss Glasson's benefit.

Foreign Students Were Entertained

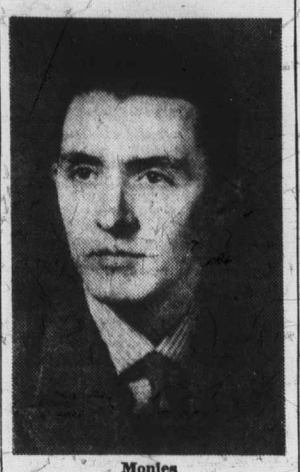

Santa Claus had the choice of two fire places and the Noel spirit prevailed at the Getorgetown home of Prof. George Howland Cox, director of the Center of Inter-American studies, and Mrs. Cox, who were hosts to members of the International Students Society on Christmas eve at a party planned particularly for those members who came from foreign lands, and which had all the charm of a Christmas eve at home.

A buffet supper was served, followed by the singing of Christmas carols. After several games, the evening's festivities were climaxed by the distribution of gifts from a beautifully decorated Christmas tree.

Med Group Discontinues Meet

Phi Lambda Kappa, men's medical fraternity, has discontinued its regular business meetings until the beginning of next semester, in order to prepare for final examinations.

Pledges Plan 2 Special, No-Cut Dances As Features of Annual Prom Friday

Monies

Jeschke

Music Will Be Furnished By Black Rasputin and Lee Fields

Replica of Goat Will Decorate Entrance to Raleigh Ballroom

Two special dances in which no cutting will be allowed are scheduled as part of the program for the Interfraternity Pledge Prom, Friday night. One dance has been reserved during the early part of the evening for men to dance with their dates and the other will be exclusively for pledges and their dates.

This follows the suggestion made in this column in last week's Hatchet by Robert Howell for the improvement of University dances.

William Derrick, Sigma Phi Epsilon, president of the Interfraternity Pledge Council, will escort Betty Hartung, of Alpha Delta Pi, and Nelson Monies, Sigma Alpha Epsilon, social chairman, will be accompanied by Margaret Jeschke, of Pi Beta Phi.

Plans for the Prom were culminated at a meeting of the council held Sunday at the Sigma Chi house. A continuous supply of music will be furnished by Black Rasputin and His 12 Mad Monks and Lee Fields' 10-Piece Orchestra.

Other features of the prom will be a spot dance with prizes for the most graceful dancers, and a balloon dance.

Bob Evans, chairman of the decorations committee, has announced that decorations will add materially to the color of the event. At one end of the ballroom a huge model of a goat will provide a door through which entrance to the dance will be made. Pennants of various hues will be suspended in rows, from the ceiling.

Pledge delegates will attend in full dress, with a purple and white band, representing the colors of the group, across their chests.

As previously announced no corsages will be allowed on the floor, and any one who arrives with one on must check it with his coat.

Derrick

Hartung

Ten Couples Plan To Wed

Marriage of One Couple Was Recently Announced

Chi Omega announces the engagement of Frances Knapp to James Zepp. Miss Knapp is a student at the University while Zepp, a former George Washington student is now attending Washington College of Law.

Phi Mu announces the marriage of Rachel Miller to Gus Lotterhos. The wedding took place late in December.

Alpha Delta Pi announces the engagement of Bertha Lockhart to William Clark, a student in Harvard Law School.

The engagement of Mary Florence Whitney to Joseph Edward Bowman was recently announced. The wedding is to be held Jan. 21 at the home of the bride's parents. Miss Marjorie Newman and Mrs. Robert Newman are the bride's attendants. Miss Whitney is a member of Delta Zeta sorority.

Iva Anderson, also a member of Delta Zeta, has become engaged to William Rogers, a graduate of G. W. Law School and a member of Alpha Delta Pi fraternity.

The engagement of Helen Hunt to Howard Lech was recently announced.

Miss Emily Murrey, formerly a student of the George Washington University Art School, was married to Mr. William Sunrell, Jr., on October 3, at St. James Church, New York.

Phi Sigma Sigma announces the marriage of Pearl Sheer to Mark Bensinger, and the engagement of Sylvia Werksman to Lee J. Land.

Diebert Addresses Le Cercle Francais Group

At the monthly meeting held just before Christmas the French Club was addressed by Alan T. Diebert of the Romance Language Department on the subject, "Christmas in France." Mr. Diebert pointed out the many differences in customs from our own, and gave a delightful picture of the domestic side of French activities during Yuletide.

Replacing its regular monthly meeting Le cercle francais will meet at a luncheon Saturday, Jan. 16 at 1:30 at the Y.W.C.A.

Deibert To Fete Foreign Students At Tea Thursday

Prof. Alan T. Deibert will give another of his series of teas for students from foreign countries Thursday from 4 until 6 p.m. at International House.

At the tea table will be Lota and Anna May Ing, daughters of the Counsellor of the Chinese Embassy, who are students in the Univrsity.

Mrs. Vinnie G. Barrows, director of women's personnel guidance, and Kitty Baart, president of the International Students' Society, will assist.

During the course of the afternoon a musical program will be given.

New Year's Gift For Strong Hall

Dates will no longer stand in line fainting for the Strong Hall coeds to ascend, for Thursday afternoon three vans drove up to present as a New Year's gift to the surprised women of Strong Hall with furniture.

Comfortable sofas, love seats, rugs, chairs, tables were among the arrivals. Furniture for the living room, the tete-a-tete parlors, and the library were also presented.

A baby grand piano and radio will soon arrive with the rest of the furniture for the sitting rooms. And then with curtains and shades for privacy, and gay chintz to brighten the studious spirits of the coeds, Strong Hall will be transformed into Strong Home.

Columbian House Faces Renovation

With the proceeds from a benefit card party and musicale at the Wardman Hotel Nov. 7 and contributions from various campus organizations the Columbian Women have created a fund of $425 which is being used to re-decorate Columbian House.

New rugs, drapes, and slip-covers have already been placed on the first floor of Columbian House and measurements have been made for similar improvements on the second floor. The Columbian Women had started to re-decorate the old Columbian House, but after changing to the present building it was found that the furniture and drapery could not be used.

Two Will Argue Gauge For Beauty Tomorrow

Theresa Bollinger and Maury Hull will present opposing viewpoints in the field of aesthetics before an open forum meeting of Phi Sigma Rho, local philosophical society, in Corcoran 17 tomorrow night at 8:15.

The topic for discussion is "Is beauty to be judged by absolute standards, or in relation to prevailing tastes of one's time and place?" Miss Bollinger will argue that there are absolute standards, while Hull will favor the relative view.

Three In Hospital

John Gilbert Osterman, medical student, and Muriel Friedman and Anne Walzer, regular University students, have been patients at the University Hospital since the beginning of last week.

Hour Glass Holds Meeting

Hour Glass will hold a meeting Thursday in the Sigma Kappa rooms.

Deans Return to Classes

Dean William C. Jonstone, dean of the Junior College, returned to his classes Friday, after having been confined to his bed with the flu. Dean Henry Grattan Doyle, of Columbian College, has been absent since the holidays, also suffering a severe attack of influenza. He is expected to return to his official post tomorrow.

A. A. U. W Entertains District Girl Scouts

The Washington Branch of the American Association of University Women entertained members of the Girl Scout Council of the District of Columbia and Maryland at tea last Monday afternoon.

Following tea, Miss Dorothy Davidson, local director of the Girl Scouts, gave a talk on "Girl Scouting and Its Place in the Community", and a demonstration was given by Troop 21 of Cottage City, Md.

2 G. W. Women Elected To Baptist Union Posts

Lucy L. Majure and Mary K. Majure, students here, were elected state student magazine representative and state director of publicity, respectively, at the monthly meeting of the officers of the District of Columbia-Maryland Baptist Student Union recently in Waddell Hall at Calvary Baptist Church.

Other features of the meeting included reports on publications, plans for the year's program and several accordion selections by Elizabeth Burnett, also a University student.

Riding Club Takes Lesson

"Wooden Horse" Again Takes Fore in Riding Club Lessons

The University Riding Club will hold its second January meeting at 8 o'clock Wednesday evening in D-3.

Major A. W. Roffe, Army War College, will deliver his third monthly talk to the club at which time he will use the club's new model wooden horse to demonstrate the proper technique in mounting, dismounting, saddling and bridling.

At this meeting membership cards will be distributed to all members who have paid their dues which will allow them to ride from the Yorkshire Stables, 2521 H St., for 75c on week days and $1 on Sundays and holidays.

Subjects to be discussed at the meeting include the future drag hunt and the tentative raise in dues. The present dues are $1 per semester.

The club has weekly Sunday rides and Saturday instruction class, conducted by Capt. E. A. Kane, of Fort Myer.

Racquet Club Site Of Fraternity Meeting

Delta Theta Phi, professional legal fraternity, will hold a meeting at 7:30 p.m. Monday at the Racquet Club. H. L. McCormick, a Law School graduate, now a local attorney, will talk on "The Value of General Practitioning in Law Today".

A joint smoker and initiation is scheduled for Jan. 30 at the Gorge Mason Hotel in Alexandria. The initiates are Clair Stout, Al Stewart, A. C. Dawson, John Adams, and Abraham Lincoln.

Surprise Party Given

The physical education major students gave a surprise party for the celebration of Barbara Feiker's birthday in the Alpha Delta Pi rooms Saturday night. Misses Atwell, Lensch and Turnbull of the faculty attended.

Gamma Eta Gamma Entertains

Gamma Eta Gamma will entertain at a bi-weekly dinner meeting, which will be held at O'Donnell's Restaurant, 1217 E St., today.

Final Plans For Dance Announced

Engineer's Annual Ball to Be Held at Shoreham Feb. 12

THE Engineer's Council announces that final plans have been completed for the sixth annual Engineer's Ball to be held in the West Ballroom of the Shoreham Hotel, Feb. 12.

The Grand March, which will form during intermission, will be led jointly by George Rhine, president of the Engineers Council, and a member of the U. S. Engineers Corps and their ladies.

Music will be furnished by Meyer Davis orchestra from 10 to 1. A singer will accompany the orchestra.

Tickets may be obtained from members of the Engineers Council or from the office of the Dean of Engineering for $2. This dance is one of the social highlights of the year.

Faculty Women Postpone Dinner Honoring Marvins

Mrs. Joseph H. Roe, president of the Faculty Women's Club, announces the postponement of the annual dinner in honor of President and Mrs. Cloyd H. Marvin, which was to have been held on next Saturday evening at the Kennedy-Warren. President Marvin has beel called to the west coast by the critical illness of his mother.

Rush Party Is Given By Phi Delta Gamma

Beta chapter of Phi Delta Gamma, graduate women's sorority, gave its last rush party of the season Saturday evening when about 25 women taking graduate work here were entertained at a progressive dinner. Members and guests gathered at Columbian house and at 6:30 and then went in small groups to the different homes of the hostesses for each of the four courses of the dinner. At the end of the evening Miss Frances Alexander receiver the entire group at her home on Blair Road where coffee and mints were enjoyed.

Sunday afternoon the members of Beta chapter had their regular meeting at Columbian house. Hostesses for the tea following the meeting were Misses Frances Carnes, Phoebe Knappen, Elizabeth Fielden, Elizabeth Hewston, Eleane Arnaud and Nina Booth.

Sigma Alpha Epsilon Elects Allen Hubbard

Sigma Alpha Epsilon at a recent election chose Allen Hubbard as president. Ben Coleman was selected to fill the position of vice president and interfraternity delegate. Other officers are Roy Campbell, treasurer; Billy Crooks, correspondent; Foy McDavid, chronicler; Ed Olsen, herald; and Bob Carnahan, warden.

Fins Holds Frolic

Fins, women's swimming club, wil hold a water frolic at the Shoreham pool tonight at 7:30 o'clock. From 8 o'clock till 8:30 special instruction in the finer points of the crawl stroke will be given by Miss Jennie Turnbull. A spirited game of water polo will complete the evening.

Tau Epsilon Phi Holds Convention at Willard

Tau Epsilon Phi held its annual national convention at the Willard Hotel from Dec. 30 to Jan. 2.

Among the features of the contion was a buffet supper and dance given on New Year's Eve, with Charles Burnett's Orchestra providing the music.

A stag banquet, held Jan. 1, was the final function of the convention.

Emile Gives Demonstration

The members of the Home Economics Club were given a demonstration of the hairdresser's art by Emile, Jr., at their meeting Thursday night in Building D.

Women's Games Are Scheduled Next Semester

Basketball, Badminton, Fencing, Tournaments Begin in February

WITH the announcement by the heads of basketball, badminton, and fencing, of coming tournaments, the present pre-exam slump in women's athletics will come to a definite close.

On Feb. 16 the freshmen vs. sophomore and junior vs. senior games will officially open the basketball inter-class competition at 7:30 p. m. at the gymnasium. The freshman-senior and the sophomore junior teams will tangle on Feb. 24. The final inter-class games will be the freshmen vs. junior and sophomore vs. senior contests on March 2.

On March 10 a team selected from the freshmen and junior teams will meet the sophomore-senior favorites. The climax of the season, the game between the honorary varsity and the alumnae, will come off March 15.

Mixed and feminine doubles tournaments in badminton are also scheduled for the first few weeks after school reopens. Men interested should sign up with their gym leaders. Partners wil be provided, but preferences are recognized.

The fencing club will hold its annual round-robin tournament in the near future. This club, which is stil open to all female applicants meets on Mondays from 3:30 to 5 p. m. and Thursdays from 7:30 to 9 p. m.

Kappa Delta Takes Title

Beats Pi Phi's in Final of Table Tennis Tournament

KAPPA DELTA won the intramural pingpong tournament cup by defeating Pi Beta Phi 21-19 and 22-20.

In the semi-finals Pi Beta Phi defeated Kappa Kappa Gamma 21-12 and 21-19, and Sigma Kappa was beaten by Kappa Delta, 21-19 and 21-9.

Monday, Dec. 14, Phi Mu in the only game of the day won over Alpha Delta Theta, 21-3 and 21-6.

Tuesday, Kappa Kappa Gamma defeated the Colonial Campus Club and Alpha Delta Pi 21-6 and 21-9 and 21-23 and 21-15.

On Wednesday, Kappa Kappa Gamma and the Colonial Campus Club triumphed over Phi Sigma Sigma 21-11, 21-12 and 21-12, 21-14, respectively.

Members of the winning K. D. team are Betty Griswold and Jane Edmundston.

Bridge Tourney Plans Incomplete

With Chi Omega, Alpha Delta Theta, and Phi Sigma Sigma left in the Panhellenic bridge tournament, the date and plans for the final game have not been completed, according to Jane Saegmueller, chairman of the contest.

Katherine Porter and Peggy Coulbourne are playing for Chi Omega; Violet Parrish and Maureen Wise for Alpha Delta Theta; and Evelyn Eibender and Florence Kressfeld for Phi Sigma Sigma.

The last game was postponed because several of the contestants were unable to attend.

Notice will be given of the exact date as soon as it is decided upon.

Tau Alpha Omega Celebrates

Tau Alpha Omega fraternity celebrated its 15th annual convention in Baltimore during New Year's weekend. A large delegation from Washington attended the convention, which included gay celebrations at Levering Hall and the Southern Hotel.

Pledges Initiates Announced

James Fulton was pledged to Acacia recently.

Zeta Tau Alpha announces the formal initiation of Gretchen Hill and the pledging of Irene Rowen.

Inquisitive Inebriate Invades Sanctum of Sedate Classroom

By Frank King

Quiet surprises seemingly ebb and flow about us. Last week, a sedate French class trundled into its class room in the usual languid fashion, prepared for the assimilation of the French expression.

One of the female contingent seated at the rear of the room was startled out of her usual composure by a quiet tap on her shoulder. Turning her most quizzical look on the intrepid tapper, she was asked: "Ish this the inthegral calculush classh?" (My, my, such enunciation, she thought.) Upon persistent prodding from his cautiously quiet protectors, the rear-seat genius revealed that he was seeking integral calculus, but something in him evidently had snapped.

Of course, he proved to be a master of languages as well, and thereupon decided to grace the room with his reeking presence the rest of the hour. The commotion finally became too much for Professor Quintanilla, so the alcoholic stranger rose and explained, in halting terms, his presence to the professor. The latter, being a man of tact and patience, invited him to sit, but more quietly, and after much dignified bowing back and forth (the alcoholic stranger finally getting the last one in on the by-now-worn-out professor) he seated himself with gusto and uncomposure.

But things were going along too quietly for our fine-feather and bestewed friend, Mary Fears, seated across from him, was beginning to bite her nails nervously and in an apprehensive way. This seemed to be just too much for the uninvited guest. He rose, in his over-straight way, and slapped her sharply on the hand-with-the-bitten nails, informing her of the unhygienic results of such childish practices. (We wonder why Mary didn't bite her wrist off then?)

This also seemed to annoy Professor Quintanilla endlessly. Upon his vociferous protests, our friend resumed her seat, but not before having his say. He pointed out to the amazed class, which by this time was getting a crick in its collective neck, that theirs was a superb opportunity to study under so learned and esteemed a man as the professor. He proceeded to harangue the students upon their attitude of indifference and indolence.

When his little speech had reached the height of its force he suddenly stopped short, and, still basking in a battery of blazingly Kleigish eyes, again seated himself for the pursuit of knowledge.

The professor resumed his imperturbable tutorial routine. However, the jolly rear-seat incumbent, unable to control himself any longer, upped himself, again gave the professor his blessing and the students his imprecations, and staggered to a hasty retreat. Mary Fears is still chewing vigorously, we are told, and the rest of the class remains convulsed.

Old Students' Preregistration Begins Wed.

Early Registration Period Will Run Through Jan. 22

Pre-registration for the second semester will open tomorrow, continuing through Jan. 22. During this period students now enrolled in the University may plan their second-semester schedules with the assistance of deans and advisers, execute the necessary forms and complete registration in advance of the more crowded regular period.

Registration for students entering the University in February from high school, or transferring from other colleges and universities will take place Feb. 3 and 4, and classes for the second semester will begin Feb. 5. Mid-year examinations will run from Jan. 23 through Jan. 30.

For registration after Feb. 4 a late-registration fee of $5 will be charged. Registration in all courses for credit closes Feb. 18. For all schools and divisions of the University except the Law School, registration will be conducted in Corcoran Hall from 9 a. m. to 8 p. m. Registration for the Law School will be conducted in Stockton Hall from 9 a. m. to 8 p. m.

For the benefit of students who are graduated from high schools at mid-year, full-year courses are started in February in the departments of chemistry, civil engineering, Latin, English, home economics, mathematics, physics, psychology, and public speaking. Many of the full-year courses which start in September may be entered in February with the consent of the instructor. In addition, 150 one-semester courses start in the second semester in the departments of biology, botany, business administration, chemistry, civil engineering, classical languages and literatures, economics, education, electrical engineering, English, Germanic languages and literatures, history, home economics, law, library science, mathematics, mechanical engineering, pharmacy, philosophy, physical education for men, physical education for women, psychology, political science, public speaking, romance languages and literatures, sociology, statistics, and zoology.

A special schedule is arranged in the Law School for those desiring to enter in February upon the study of law. With the Law School placed upon a graduate basis, only persons holding college degrees are eligible for entrance.

All schools, colleges, and divisions of the University, with the exception of the School of Medicine, may be entered in February, including the Junior College, Columbian College, the Law School, the School of Engineering, the School of Pharmacy, the School of Education, the School of Government, the Division of Library Science, and the Division of University Students. Candidates for the doctorate may make application for admission to fellowship in the Graduate Council at any time during the year.

In order that students may plan their second semester work to coordinate with courses to be taken in the summer, the 1937 Summer Sessions schedule has been issued in advance of second semester registration and is now available.

Prof. W. L. Moll Translates Book

Prof. Walter L. Moll, of the Law School, has translated the book, "Fundamental Principles of the Sociology of Law", from the German text by Eugen Ehrlich, the famous professor of Roman law at Czernowitz. This is one of the leading European works on sociological jurisdpudence by an exponent of the new trend in jurisdpudence.

Referring to the new trend, Prof. Moll, in the preface to his translation, points out that juristic writers have come closer together in their modes and methods of thinking than heretofore, and that "many contemporary juristic writers have found a common ground in the principle that the basic thing in the formulation of legal theory is not the individual as such, with his individual will, purposes, and aims, but society as a whole; not the various legal precepts as such, but the social order, the just ordering of modern society through law; not the old abstract individualist legal justice, but the new social justice".

Physics Group's Petition Approved

The American Association of Physics Teachers has approved the petition of a group of local physics instructors to establish a chapter for Washington and its environs.

The group, an outgrowth of the conference on the teaching of physics sponsored jointly last year by the University and the local public schools, represents instructors in the University, Georgetown University, Catholic University, the University of Maryland, Wilson Teachers College, and the local high schools. There are now only four such chapters in the country.

Prof. Raymond Seeger, assistant professor of physics, was invited to become a member of the National Executive Committee, and he participated in the meeting of the Association held at Atlantic City during the holidays.

Swing Featured Between Halves

Special features between the halves of major basketball games in addition to regular band selections are being planned by Floyd Sparks, alumni adviser of the Band.

Director Leon Brusiloff also stated that swing bands would take the place of the military units at the games as soon as more players of swing band instruments could be trained. There are still openings, he said, for players of saxophones, trombones, and violins.

Brusiloff stated, however, that only those who have time for practice should apply.

Chi Upsilon Meets

Chi Upsilon, professional women's geological fraternity, will meet next Saturday night at the home of Miss Edna Davis, for a business meeting to be followed by a social hour. The society will take up the matter of revising the bylaws and discuss plans for the coming year.

Following the meeting, Dr. Ray S. Bassler will give a talk about the geological aspects of his recent trip abroad.

College Talent On Network

New CBS Program Features Undergraduate Entertainers

Undergraduate musical talent has a chance to break into big time radio on Jack Oakie's college of the air, Oakie-Doakie College, which is featuring the best available vocalists and instrumentalists from colleges and universities throughout the country, over the WABC-Columbia coast-to-coast network, and heard locally over WJSV Tuesday evenings, 9:30 to 10:30 o'clock.

Oakie, a screen comedian, is "Prexy" of a mythical college. Other famous Hollywood and radio comedians are "guest stars" who serve as visiting professors and lecturers. Benny Goodman's and Georgia Stoll's orchestras furnish the musical background for the program. The college talent representing some one college or university is presented with each broadcast.

Representatives of the sponsor are auditioning students at their respective colleges. Contacts are being made through musical professors and student managers of the various glee clubs, bands and other musical organizations. Selected talent is given the opportunity to be heard from coast-to-coast on one of the most popular programs being aired today.

Debate Club Meets Thursday

Members of the women's debating team will be selected at an open meeting Thursday at 8 p.m. in D-301. The question is "Minimum Wages and Working Hours." The debators will debate five teams from other universities.

Student Ornithologist Joins Expedition to East Indies

Malcolm Davis, a student in the Junior College, will be a member of the wild game expedition which the National Geographic Society and Smithsonian Institution are sending to the East Indies. He will be attached to the party as ornithologist.

Davis has taken special examinations in order to complete this semester's work before the expedition leaves next week. The group, headed by Dr. William Mann, director of the National Zoo, will probably leave from the West Coast as soon as shipping difficulties occasioned by the seamen's strike have been cleared up.

Davis said he hopes to stay with the expedition the eight months which is expected will be spent in the East Indies. Headquarters will first be established in Sumatra, from which field trips will be made to Java, India, Ceylon, the Celebes, and Siam.

Principal object of the expedition will be to bring back new animals, birds, and reptiles for the Zoo. Besides Indian elephants and Bengal tigers, many animals, birds, and snakes never put on exhibition in this country will be sought. The expedition, with its captives, will return to this country on a freighter.

Davis' work will be chiefly in assisting with the capture and care of birds, which he will later help exhibit and care for in the Zoo, where he is an ornithologist.

Davis said he will not return to the University before the second semester next year. He is working for a B. S. degree in zoology.

Life Factors Profs' Topic At Club Meet

Treadway, du Vigneaud, Bloedorn, Mallory Address White Society

A symposium on "The Mental and Social Factors in the Life of the Individual" was held by the William Alanson White Society Dec. 17 at the Medical School, with Drs. Walter Lewis Treadway, Vincent du Vigneaud, Walter Andrew Bloedorn, William Johnston Mallory, all of the Medical School, as speakers. The program was a repitition of one which was held by the Academy of Medicine the week before.

Dr. Treadway introduced the subject and presented Dr. du Vigneaud, who spoke on the "Biochemical Aspect of Mentality, Emotions, and Environment." This talk was illustrated by slides showing some of the clinical results of endocrine conditions.

The clinical side of the subject was then presented by Dr. Bloedorn, who emphasized those cases coming to the cardiologist, and gave many case histories as examples. Following this, were Dr. Hazen's paper on the "Result of Mental Attitudes on Dermatology," and Dean McKinley's paper on "The Place of Psychiatry in the Medical Curriculum."

Dr. Mallory then spoke on the "Pitfalls of Specialization," emphasizing the need to consider the patient as awhole with the consequent dangers of a too specialized approach.

After Dr. Roscoe Roy Spencer informally commented on the whole program. Dr. Treadway concluded the symposium by summarizing the importance of the factors in the life of the individual, and in the clinical consideration of the individual.

The January meeting of the White Society will be a program on the diagnosis, case presentation, and consideration of the mental patient as met by the general practitioner.

Swisher Society Will Hear Talk By Dr. Schirmer

Dr. Erica Schirmer will address the Swisher History Club tomorrow on the subject, "Education in Modern Germany." The meeting will be held in Columbian House on the first floor at 8 p. m.

Dr. Schirmer, who is a graduate of the University of Jena and a citizen of Germany, is at present on a lecture tour in the United States which is being sponsored by the American Association of University Women and by the Institute for International Education. This is Dr. Schirmer's first visit to the United States.

Following the regular meeting and the lecture, Dr. Schirmer has volunteered to answer questions of the audience on European politics, philosophy, or kindred subjects.

Chi Sigma Gamma Meets

Chi Sigma Gamma, women's honorary chemical society, will meet for a business session next Saturday night in Corcoran to discuss plans for the next rushing season.

Union

(Continued from Page 1)

which will give audience to complaints and infringements of either's rights.

Labor Bill

The Bill follows:

A bill to establish maximum hours and minimum wages for workers according to standards prescribed herein.

Be it enacted by the Student Union of the George Washington University in regular meeting assembled that:

SECTION I. The Labor Department shall be authorized to administer provisions of this bill, which authority shall include the establishing of Appellate Boards to give audience to complaints and infringement of rights of employers and employees as prescribed herein.

SECTION II.—MAXIMUM HOURS.

A. Labor shall be divided into four general classes: 1. Heavy work—that involving more than normal dexterity and independent judgment and/or more than normal physical effort and/or subjecting the individual to conditions dangerously detrimental to health.

2. Light work—that involving less than normal amount of physical exertion and/or less than normal dexterity and independent judgment.

3. Farm and Agricultural—that performed by farm hands and workers in the field incidental to the planting, reaping, and disposition of the crop by the original producer.

4. Average work—tasks involving normal physical exertion and/or normal dexterity and independent judgment and not submitting the individual to abnormal conditions which are detrimental to health.

B. The maximum work-week beyond which no employee shall be permitted or forced to work shall be as follows:

Class 1: 36 hours per week.
Class 2: 48 hours per week.
Class 3: 55 hours per week.
Class 4: 52 hours per week.

SECTION III.—Minimum wages. Minimum wage rates for workers shall be established on the basis of the following:

An annual income sufficient to provide minimum health maintenance and the necessities of life for the average family in a given locality. (Cost to be furnished by the Labor Department as prescribed in Section I.) Such cost to be reduced to a weekly basis; the resultant figure to be further reduced to an hourly basis by dividing this figure by 90% of the maximum hours prescribed in Section II, B for a given class.

SECTION IV.—EXCEPTIONS.

1. Seasonal work. The minimum wage rate for workers in industries whose normal period of operation is between 9 and 11 months per year shall be 115% of the minimum wage rate prescribed in Section III. The minimum wage rate for workers in industries whose normal period of operation is between 7 and 9 months per year shall be 125% of the minimum wage rate prescribed in Section III. The minimum wage rate for workers in industries whose normal period of operation is less than 7 months per year year shall be 130% of the minimum wage rate prescribed in Section III.

2. The Secretary of Labor or his duly authorized agent shall issue public licenses authorizing the employment of learners or apprentices, or workers whose earning capacity is impaired by age or other causes, and whose capacity for useful labor at a given task is less than will provide a reasonable return of the wage, at a rate which may be less than the minimum wage rate.

SECTION V.—PENALTIES. Any person who shall willfully resist, prevent, impede, or interfere with the administering of any provision of this act shall be punished by a fine of not more than $5.000 or by imprisonment of not more than one year, or both.

SECTION VI. Nothing in this bill shall be construed so as to interfere with or impede or diminish in any way the right of collective bargaining or the right to strike.

Explanation

SECTION III.—FORMULA. X divided by 52 by L equals Z.

X—Annual cost of providing minimum health maintenance and the necessities of life for the average family in a given community.

52 weeks per year.

L—90% of the maximum hours per week prescribed for a given class of workers.

Z—Minimum wage rate.

Med Prof. Named To Science Board

Dr. Vincent Du Vigneaud, professor of biochemistry in the Medical School, was elected to the Council of the American Association for the Advancement of Science at the meetings held recently at Atlantic City. The Council is a body of about 250 representatives of constituent societies of the association.

Dr. Sam Trelease of Columbia University was also elected to the Council.

Dr. du Vigneaud was also appointed to the executive committee of the section of medical sciences of the association, representing the American Society of Biological Chemists, along with Prof. P. A. Schaeffer of Washington University, St. Louis. He had served as secretary of the medical sciences section during 1936.

German Society Will Reorganize Here Thursday

Schonfeld Deutscher Verein, social and cultural club for students of German, will be reorganized at a meeting Thursday, at 2020 G St., 8 p. m., Helen Eddy, acting president, announced last week. The club has been inactive for three years.

Dr. Edward H. Sehrt, head of the German department, will assist in reorganization, and will outline the scope and purposes of the club.

Meetings will be open, with students and former students of German especially invited to attend.

Center

(Continued from Page 1)

bill, both of which fell beneath the Supreme Court's axe, talked on the problem of securing for more of our people a larger share of our wealth. He pictured labor arrangements in which labor can face the employers on equal terms across a bargaining table, and said that this, even more than minimum wage legislation, will enable labor to procure better hours and wages.

Howard Ennes has been appointed by the Union president to handle negotiations which, it is hoped will lead to the scheduling of several prominent speakers for Union meetings. The final schedule of meetings has been set as follows:

Jan. 13, Labor, Larry Cox, chairman; Feb. 10, Banking and Currency, Anne Dienstl ,chairman; March 3, Natural Resources, Donald Nyrop, chairman; March 24, Agriculture, Lewis Shull, chairman; April 14, Taxation, Tariff and Finance, Edmund Robertson, chairman.

NEW HIT ON THE RADIO!

"Jack Oakie's College"

"Prexy" Oakie, the distinguished Hollywood educator, photographed in the full glory of his academic robes, ready to dish out a lecture.

It's a riot—it's unbelievable —it's Oakie at his best!

Also BENNY GOODMAN'S *"Swing" Band,* GEORGE STOLL'S *Concert Orchestra, Hollywood comedians, and singing stars —and— special talent from the colleges every Tuesday night!*

HERE'S college life, not as it is, but as it ought to be, according to Jack Oakie! Imagine Jack Oakie running a college. Think what would happen—and tune in on this notable occasion—the first radio series of this popular screen star. Along with Jack, you get Benny Goodman's "swing" rhythms, George Stoll's concert orchestra, guest stars broadcasting direct from Hollywood, and—here's news—special talent from the colleges every week. A sparkling full-hour show that you won't want to miss.

EVERY TUESDAY NIGHT

9:30 pm E. S. T., 8:30 pm C. S. T., 7:30 pm M. S. T., 6:30 pm P. S. T. WABC—CBS Network. JACK OAKIE, BENNY GOODMAN, GEORGE STOLL, Hollywood comedians and singing stars. Special college talent every week.

Hatchet Sports

WASHINGTON, TUESDAY, JANUARY 12, 1937

McConnell, Everett, Gardner, Hays, and Williams Are Named on All-Interfraternity Quintet.

Sport Axe

BY HARRY CEPPOS

THE Redskins are coming to town next year and despite comment from the downtown papers speculating upon the effect of their arrival upon the attendance and other aspects of the local grid situation, I can't help but think that a professional football team in our midst will be a good thing.

Will Help Players

The very first thought that popped into my mind when I heard that George Marshall was bringing his team to the District after several unsuccessful financial years at Boston was that this would be a break for all the local college football players. Why? Well, in the past, though many fine players have been developed here, their graduation saw them go out of football entirely or into some minor professional league like the Dixie. Washington was considered too insignificant a football town for the big league scouts to watch, so much in the way of football talent that might have gone over in the American or National League went to waste. You will remember what a task Tuffy Leemans had to break into the big time. Only a magnificent job of vote-getting for the All-Star game got him into that affair and then his natural brilliance finished the job.

Now that this team will be located here, it will only follow as a natural consequence that the Redskins will act as a graduate school to any player in the District good enough to attract wide attention. Then, too, the managers, scouts, coaches, and players will all be right on their toes to catch local talent which always has been a drawing card. So I repeat that the local players who ever had any aspirations toward breaking into the big time football now have their chances.

Won't Hurt Attendance

Much speculation has been going on as to the effect on the attendance of the Marsh II Miracles upon the college attendance. Though many writers seem to think that a decrease will be resultant, I still claim that the attendance will vary little. Those who will go to the Redskin games will go more to see pro teams play, little caring for the result, rather going to see good football and spectacular plays. Of course all of this will be seen in college football, but there will be added to the incentive of going to see college ball, the fact that the teams will be out there fighting to win for their schools. Now this might sound like "fighting for old Siwash" stuff, but I firmly believe that many people go out to the games just to see the men do-or-die for their college. It is an intangible spirit that causes the college boys to put a little something into their playing, maybe I've just imagined it, but I think the boys fight more for an undefeated season and for the sheer joy of playing, than the pros.

So I don't think Jack Espey has to worry about losing too much attendance, and if he has lost none of his old skill at throwing passes (I'll take two, Jack) George Washington should continue leading all attendance records in the District.

Varsity Schedule

G. W., 41; Johns Hopkins, 22.
G. W., 39; Marshall College, 19.
G. W., 41; Nebraska, 22.
G. W., 51; Mt. St. Mary, 25.
G. W., 48; St. Johns, Brooklyn, N. Y., 28.
Thursday—Wake Forest, place undecided
Jan. 22—Villanova, at Philadelphia.
24—Long Island, at Madison Square Garden.
Feb. 3—Geneva, at Tech.
6—Mt. St. Mary, at Emmitsburg.
11—Davis-Elkins, at University Gym.
15—Westminster, at Tech.
19—West Virginia, at Morgantown.
22—Loyola, of Chicago, at Roosevelt.
25—Geneva, at Beaver Falls
26—Westminister, at Westminister.
Mar. 3—Long Island, at Tech. Villanova, at Tech.

Basketers, Deacons, Play

Meet Wake Forest Thursday; Coach Is Content With Performance

Reinhart Says Ben Goldfaden, Milt Schonfeld Improved

The story of the Elon game last night will be found on the first page of The Hatchet.

THE Colonial five will attempt to make it seven straight Thursday night when the strong Wake Forest team will be met. The place of the game is still undecided as the athletic office is trying to get the Tech gymnasium. Definite announcement will be made this morning.

The Demon Deacons have a powerful quint this year as evidenced from their previous games. They have defeated North Carolina State and have held the unbeaten Duke team to a two-point victory. In the past G. W. has disposed of the North Carolineans easily, but the task of subduing them this year is going to be harder.

With the basketball team rounding into form rapidly, Coach Bill Reinhart is more than satisfied with results, but he is still expecting more development before the next trip beginning Jan. 22.

He says, "The five will have to be better than it has to win the three games against Long Island, Villanova, and Army whom we play on our trip. However, I am satisfied that the team has been playing good ball and will get better."

Team May Lose Some

Bill continued by saying that he wouldn't be disappointed, though, if the team did lose several games. After all, it was his contention, just because a team loses one or two games in a schedule such as George Washington has, the season does not become disastrous.

"Personally," he went on, eyeing Bert Green, who was cleaning up, "I expect the team to lose more than one game. We have some mighty tough teams on our schedule and though the team is good, it will be nearly impossible to come out at the end of the year undefeated."

One of the most important reasons for the present success of the team, according to Mr. Reinhart, has been the improvement of several players and the acquisition of a new man.

Goldfaden Improved

"Goldfaden is one of the most improved players on the team. He and Schonfeld have improved a lot. Kiesel, in my mind, is still one of the best boys on the team even though he didn't score a lot of points in the Nebraska game. He and Butterworth have concentrated more on team play and passing, and their height has enabled them to take the ball off the backboard. The whole team is playing a fine game right now and I'll be satisfied if it keeps up."

Riflers Face Hoyas Friday

In a practice match Friday night, the Colonial marksmen tied the score of 1372 which won last year's National Intercollegiate Rifle Competition, while their opponents of next Friday, the Hoyas, were bowing to Johns Hopkins, 1272 to 1224.

Tracy Mulligan, high scorer in the practice match Friday, though a veteran of two years intercollegiate competition, will take his place on the firing line for the first time as manager of the Colonials as the varsity opens its season with the first shoulder-to-shoulder match with Georgetown on the Hoyas' range Friday at 7:30.

Though the proteges of Coach Parsons shot an excellent score, Parsons explained that they were not shooting according to the specifications used in national competitions. However, the match with Georgetown Friday will bring to the firing line eight men for each side, from which the scores of only five will be counted.

Hal Kiesel Leads Colonial Scorers With 46 Points

SCORING honors for the Colonial five rest upon the team's forward and captain, Hal Kiesel, who has a total of 16 field goals and 14 fouls for 46 points. Kiesel did his average no harm at all in the St. John's game in which he garnered 10 points with 2 field goals and 6 fouls.

Directly on Kiesel's heels we find Goldfaden, Butterworth and O'Brien in that order. Goldfaden, who surged past the rest by virtue of scoring sprees in the last two games has a total of 43 points. In these games Ben has showed the form that garnered him District scoring honors in 1934. Next comes Jack Butterworth, flashy sophomore sensation from Evansville, Indiana, whose 17 points in the St. John's game put him up with the leaders with 41 markers.

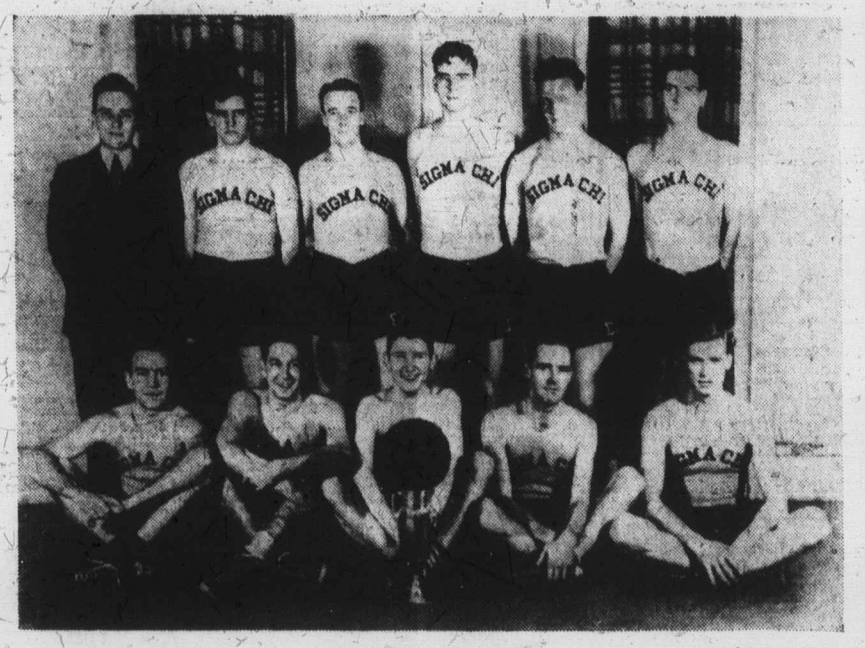

Tommy O'Brien, District's high scorer of last year, is close on the leaders' heels with 40 points. Milt

(See Kiesel, Page 6)

Hal Kiesel

Winners of Fraternity Basketball

The Sigma Chi five that won the Interfraternity Basketball Cup is pictured here. They are, from left to right: Bob McConnell, Ben Candland, Lester Ponder, Milton Musser, Paul Tackett, first row; Mgr. William Lomerson, Bob Linehan, Tom Dobson, Almo Rassmussen, Keyne Monson, and Clarence Poole, second row.

Colonials Conquer Two

Strong Defense Completely Bottles Up St. Johns' Block Play

Mt. St. Mary's Beaten Thursday, 51-25; Reserves Show Poorly

COACH BILL REINHART'S well-coached charges, with a strong defense against the Redmen's famous screen play, completely subdued a strong St. John's five and capitalized on its own fast-breaking offense to win, Saturday night at Tech Gym before 3,000 spectators, 48-28. The Colonials, playing a close man-to-man, give-and-take game, forced the Redmen to hurry their shots, and impaired the well-coached offense of Joe Lapchick, former Celtic star, and inventor of the block play. In its other encountar of the week, the Colonials defeated Mt. St. Mary's quintet, 51-25, Thursday.

Butterworth High

Jack Butterworth, center and sophomore sensation, went to town for the Buff, scoring 17 points, 15 of which came in the first half, enabling G. W. to draw far ahead of its rivals, after St. John's had led 3-0 in the first minute for the only time during the game. Butterworth garnered five snowbirds in succession before the close of the half, and consistently getting the tap, enabled Kiesel, Schonfeld, Goldfaden to work the ball in with regularity for scores.

In an attempt to stem the Colonial tide, Coach Lapchick shifted Jerry Bush, St. John's mainstay, to center, and Bill Lloyd to forward as the half opened This failed to halt the Colonials, who quickly ran the score from 30-14 to 46-22.

Reserves Go In

Coach Bill Reinhard began sending in the reserves for the tired varsity, with Bob Faris, Sid Silkowitz, "Moe" Berg, Bruce Borum and Dave Osborne taking up the reins. They showed a decided improvement over the ragged showing they put on against Mt. St. Mary's, and held the classy Red-

(See Colonials, Page 6)

Things and Stuff . . .

The Phi Sig fraternity could easily put out a varsity basketball team of its own . . . Hal Kiesel, Jack Butterworth, Bruce Borum, Bob Faris and Dave Osborne are all affiliated with that group . . . Again the Colonials dropped the Redmen . . . First the Catawba Indians were beaten in football, and now another Redskin bit the dust . . . in the persons of St. Johns . . . St. Johns' coach, Joe Lapchick, was formerly a member of the Original Celtics, but unfortunately he couldn't get out on the floor and play.

Some Joyful G. W. fan imparted a swing to the band's version of "Buff and Blue" by inserting "Hey!" after each line in the best Cab Calloway manner . . . The noise between the halves was enough to deafen a deaf man if he were not already deaf . . . Right tricky, eh, but it goes to the point . . . Blondy, otherwise, Jerry Bush, was perhaps the best St. Johns' man on the floor . . . It was a shame the Redmen had to come from so far to lose.

Ben "Moose" Goldfaden may not be the sweetheart of Sigma Chi, but he certainly has captured the heart of one of the Sigma Kappas . . . Our happy birthday department wishes one of those to Guy Renzaglia, who is celebrating (not too much) his 19th birthday this week . . . Kutch Kavaller was a crack (not cracked) bowler before he came to George Washington . . . The football banquet is coming up the latter part of the month, according to reliable sources . . . It is there that the captain and most valuable man are elected.

Long Island defeated Duquesne Saturday night . . . So it looks like G. W. is in for two hot games the two times they play the Beemen, otherwise Long Island . . . Ohio State, loser to Nebraska, trounced New York University the same night. . . . Army also beat Yale . . . Nebraska dropped Missouri . . . There were plenty of Brooklyn die-hards in the crowd Saturday night, but Coach Lapchick knew when the end had come by sending in his reserves with four minutes to go. Who is the medicine man for the five, putting castor oil, rosin, and water in the players' shoes to assure the footing on the Tech floor?

Fraternity Bowling Begins

T. U. O., Acacia, and K. A. Lead Loop A; One Match Postponed

Competition After Saturday Rests Until First Week in Feb.

INTERFRATERNITY bowling competition got under way Saturday night at the Rendezvous alleys, with five matches being rolled in the league competition on the "upper 14th St." alleys.

Theta Upsilon, with a three-game victory over Acacia, and Kappa Sigma in three straight games, emerged as leaders in League A. The only other match in this league A, between Theta Delta Chi and Delta Tau Delta, was postponed until tomorrow night.

S. N., S. X., S. P. E. Win

Sigma Nu, Sigma Chi, and Sigma Phi Epsilon with 2-1 victories over Tau Kappa Epsilon, Phi Sigma Kappa, and Sigma Alpha Epsilon lead the way in League B following Saturday's bowling.

Sigma Nu won high team total honors with a 1492 total for three games. T. U. O., a surprisingly strong combination this year, won second high honors with a total of 1459 in their set with Acacia, last year's runners up. High individual game score was garnered by Martin of Sigma Nu with a total of 141 in his second game. Martin also had the highest individual total with a splendid mark of 350. Dryer of T. U. O. had a total of 328 to place second.

Recess After Saturday

Next Saturday's games, the final competition before the first week in February, will find Delta Tau Delta meeting Acacia, Theta Delta Chi facing Kappa Alpha and T. U. O. rolling against Kappa Sigma in League A. In League B matches Sigma Nu faces Sigma Alpha Epsilon, S. P. E. will try to margin Sigma Chi while Phi Sigma Kappa battles Tau Kappa Epsilon. All matches will be held at the Rendezvous alleys, starting at 8:00 o'clock p.m.

Hatchet Chooses All-Fraternity Five

McConnell Best of Forwards

By Howard Mace

AS a fitting sequel to the recently terminated Interfraternity basketball tournament, we resort to the customary practice of choosing, or attempting to choose, an "All-Interfraternity" cage team, composed of the top-rated players of the twelve competing teams.

The task this year has proven very difficult, due largely to the fact that four teams, two in each league, were rightfully rated as the class of the leagues. These four teams, Sigma Chi, Kappa Alpha, Phi Sigma Kappa, and Acacia, furnished all five members of the mythical team, with Kappa Alpha landing two men on the quintet.

McConnell Best

Bob McConnell, Sigma Chi, easily rated the first team, being placed at the right forward post. McConnell was largely responsible for winning the cup for Sigma Chi. He was high scorer of not only his team but of the League, and proved to be a great offensive player as well as a good ball handler.

At the other forward post we find William Everett, Phi Sigma Kappa, the outstanding player of the Phi Sigs, who were defeated by Sigma Chi for the League B title. Everett, who also plays on the Law School "A" team, was a good offensive player and led his team in scoring. His value was further enhanced by the fact that he played the center post as well as that of forward.

Gardner, Center

Casper Gardner, Kappa Alpha, was given the center position over Keyne Munson of Sigma Chi. Gardner proved to be the sparkplug of his team, which went to the finals of the tournament. Gardner got the call over Munson largely because his defensive play was superior to that of Monson. Gardner was a fast, aggressive type of player, who could always be counted upon for several baskets each game.

Dolph Hays was selected for one of the guard posts on the "All-Frat" five. Hays, Kappa Alpha, was largely responsible for his team's success defensively. It was Hays who was mainly responsible for holding the high scoring Sigma Chis well in check in the first three-quarters of the final game and it was in this game that he proved himself to be the best guard in either league.

Acacian Guard

Bob Williams of Acacia has been selected for the other guard position over Musser of Sigma Chi. He was a member of last year's varsity baseball team and also plays on the Law School "B" court team. Williams was leading scorer of the Acacia five, runnersup to Kappa Alpha in League A competition.

The complete team is as follows:
McConnell, Sigma Chi, left forward
Everett, P. S. K.....right forward
Gardner, Kappa Alpha.....Center
Hays, Kappa Alpha.....right guard
Williams, Acacia.....left Guard

The second team, composed of those who gave the above listed team a close fight for top ranking, has been selected as follows:
Swindells, Sigma Nu, right forward
Britt, P. S. K.....left forward
Munson, Sigma Chi.....Center
Candland, Sigma Chi.....right guard
Musser, Sigma Chi.....left guard

Law "A" Is Cage Winner

"A" Team Goes Into Finals of Intramurals Against Engineers

IN a hard-fought, keenly contested game, the Law School "A" team decisively defeated the Law School "B" five in the Intramural playoff at the gym Sunday morning, 36-13. With this victory, the A-men earned the right to play the Engineers in the final of the Intramural tourney.

Bill Everett, center, and Gaynor Britt, forward, led the victors with 10 points apiece. Phil Fairbanks led his mates with six points. The victors, working their plays from the tap, led at half-time, 14-6. Play resumed with Ed Alfaro, center for the losers netting one from in close, for 14-8. The A-men came right back with several baskets, and from that point made the game a rout.

The final game, between Engineers and Law School "A" will take place Sunday morning in the gym at 11 o'clock. The teams are requested to appear early, so that play can start promptly.

Frosh Schedule

G. W., 63; Devitt, 10.
G. W., 63; Gonzaga, 10.
G. W., 43; Tech, 21.
G. W., 46; G. W. High, 28.
G. W., 59; Drexel Frosh, 18.
Thursday—Fredericksburgh High, place undecided.
Jan. 19—Maryland Frosh, at College Park.
Feb. 3—Washington and Lee High, at W. and L.
11—Devitt, at University Gym.
15—*Massanutten Academy, at Tech.
16—Y. M. C. A., at the Y.
20—Drexel, at Philadelphia.
22—Washington and Lee, at Roosevelt.
Mar. 3—Y. M. C. A., at Tech.
5—G. W. High at Alexandria, Va.
*All games at Tech or Roosevelt at 7 o'clock.

Freshmen Oppose Two

Yearlings Meet Fredericksburg and Terp Frosh Next Week

Zahnmen Go Into Games With Clean Slate; Have Won Five

WITH two more victories under its belt, by virtue of its decisive wins over G. W. High of Alexandria, Va., 46-28, and the Drexel Freshmen, 56-18, the G. W. yearlings will attempt to continue its unbroken string when it meets the Fredericksburg High Thursday as a preliminary to the Wake Forest game. On Monday the frosh quintet will invade College Park, Md., to play the Maryland Cubs to finish the week's play.

Otts Zahn's quintet outplayed the G. W. High boys, Thursday, right from the opening whistle, scoring 16 points to their rival's four at the quarter. Led by Captain George Garber, Meyer Aaronson, and Sid Karp, the frosh split the ragged zone defense at will, and with Garber garnering nine points at half time, they ended the half ahead, 23-8.

The second half saw frequent substitutions in the frosh lineup, with Bob Nowaski, freshman football star, leading the way with 6 markers. Dodo Robinson starred for the visitors, making 15 points.

The Drexel fray was an unexpected rout, with the Philly boys no opposition at all. Chick Hollidge, All-High at Eastern last year, with 13 points, and Meyer Aaronson, with 14 markers, topped the yearling onslaught, which found the Cubs ahead at the half, 32-7. Coach Zahn used his reserves throughout the second half, and they continued the scoring, Nowaski leading them with 10 points.

UNDERWOOD

"Noiseless" PORTABLE

Anywhere . . . Anytime . . .

Quiet typing for clear thinking is yours in the Underworld Noiseless. In the home, on trains, in hotel rooms, or dormitories, in the laboratory or lecture room, this machine disturbs no one, permits you to work without being heard . . . turns out neat, clear work rapidly and noiselessly. For speed, easy operation, and portability, with quiet performance, all in one machine, you want the Noiseless. Complete with attractive carrying case.

On The Silver Screen

LOEW'S CAPITOL

In keeping with the spirit of "Bigness" that is expected to pervade the Capital prior to and during the Presidential Inauguration, Loew's Capitol has arranged for an entertainment to start Friday, Jan. 15th, that it believes truly significant.

On the stage it will present for the first time anywhere as a stage team, Johnny Weissmuller and Lupe Velez, two of Hollywood's popular players. Also on the stage will be Borrah Minnevich and His Harmonica Rascals, appearing for the first time in the country after a continental tour of nearly two years. Minnevich will also appear in the feature picture "One in a Million" which introduces still another "first" in the debut of Sonja Henie, beautiful and talented World's Figure Skating Champion.

"One in a Million" also presents quite an array of comics in Adolphe Menjou, Ned Sparks, the loony Ritz Brothers and Borrah Minnevich and His Rascals. Others in the cast are Don Ameche, Jean Hersholt, Arline Judge, Dixie Dunbar, Leah Ray, who was last seen here with Phil Harris' Orchestra, and Shirley Deane.

LOEW'S COLUMBIA

Two musical numbers, destined for great popularity, are a highlight of "After the Thin Man," M-G-M's sequel to its tremendously successful "The Thin Man," with William Powell and Myrna Loy again seen as the fun-loving, mystery-solving "Mr. and Mrs."

The two new songs are "Smoke Dreams" by Nacio Herb Brown and Arthur Freed; and "Blow that Horn" by Walter Donaldson, Chet Forrest and Bob Wright. oBth songs are sung in night-club sequences of "After The Thin Man" by Dorothy McNulty, well-known New York musical comedy star who was recruited by M-G-M for a featured role in the new W. S. Van Dyke production which opens on Friday at Loew's Columbia for a return engagement by popular demand.

LOEW'S PALACE

America's outstanding lyric soprano, Gladys Swarthout, makes her third stellar appearance in pictures in "Champagne Waltz," which opens Friday at the Palace Theater. Fred MacMurray appears opposite her, playing the role of the leader of an American "swing" band.

The action of the film is laid in modern Vienna with the conflict between "swing" newly introduced to the gay capital and the old-fashioned waltz as exemplified by the Strauss" making up most of the story.

There's a great deal of comedy with Jack Oakie bouncing around. Others in the cast are Herman Bing, Frank Forest, Vivienne Osborne, Veiox and Yolande and others.

METROPOLITAN

George Arliss, one of the screen's finest actors, will come to the Metropolitan Theater on Friday, Jan. 15, in "Man of Affairs."

A Gaumont-British production, "Man of Affairs" presents Arliss in a dual role. He plays the part of twin brothers in this delightful comedy. One is a jovial, quick-witted world traveler who cares nothing for titles or position; the other is a pompous, self-important personage who has risen to the office of Foreign Secretary in His Majesty's government.

A Far Eastern incident which threatens the peace of two nations proves beyond the comprehension of the Foreign Secretary. Whereup on he is kidnaped and the twin brother takes over to solve the problem with a remarkable coup.

Romelly Lunge, Renee Ray and a talented English cast support Arliss in this delightful performance.

Fifteen minutes of newsreel and selected short subjects round out the Metropolitan's program.

EARLE

"More Than a Secretary," a fast-moving farce comedy in the tempo of "Theodora Goes Wild," will be the screen attraction starting Friday, Jan. 15, at the Earle Theater. On the stage, Benny Davis, popular song-writer, will present his "Stardust Revue."

Jean Arthur and George Brent are featured in the cast of "More Than a Secretary," which concerns itself with a young, prim spinster proprietress of a secretarial school whose devotion to business has robbed her of romance. Then she meets the editor of a health magazine, bran-fed, diet-conscious, and addicted to calisthenics and carrots. The resulting conflict makes for hilarious situations, with Miss Arthur in top form.

KEITH'S

Lily Pons descends from the lofty peak of a world-renowned grand opera star to the humble position of a hat check girl in the new melody-and-laugh film, "That Girl from Paris," in which she plays the title role opposite Gene Raymond at Keith's.

The demotion, however, still affords the vivacious little prima donna opportunity galore to lift her famous coloratura voice in song. She sings some pulse-stirring popular melodies which vary with sparkling effect the operatic aria from "The Barber of Seville," which highlights the climatic sequence of "That Girl from Paris."

Miss Pons' masquerade is one in a series of gay adventures revolving about her transoceanic hectic romance with Raymond, who heads Jack Oakie, Herman Bing, Mischa Auer, Frank Jenks and Lucille Ball in the supporting cast of this RKO-Radio Picture.

FINAL EXAMINATION SCHEDULE
January 23–30, 1937

The class schedule is suspended during the examination period. Examinations will be two hours in length. Books and scratch papers may not be taken into the examination room unless authorized by the instructor in charge.

Third group courses are not included. Courses in Law, Medicine and Pharmacy will be arranged by each school involved. Conflicts which can not be adjusted with the instructor, and errors should be reported to the Registrar.

Engineers Will Not Meet

There will be no more meetings of the American Society of Civil Engineers, the American Society of Electrical Engineers, or of the American Society of Mechanical Engineers until after the examination period is over.

Sigma Gamma Epsilon Announces 3 Pledges

Gus Kruger, Randall Gardner and Lewis J. Clark have been pledged to Sigma Gamma Epsilon, men's geological society.

Plans have been made for a banquet celebrating the 10th anniversary of the founding of the University chapter. The society is trying to obtain a speaker prominent in the field of geology for the celebration. The date for the banquet and initiation has been tentatively set for Feb. 27.

Kiesel

(Continued from Page 5)

Schonfeld, diminutive guard, follows with 28 markers. Behind Milt in the scoring columns are Bob Faris with 10 points, Sid Silkowitz with 2, Dave Osborne with 2, Moe Berg with 6 and Walter Bakum with 2.

Individual Standings

Player	Goals	Fouls	Tot.
Kiesel	16	14	46
Goldfaden	18	7	43
Butterworth	17	7	41
O'Brien	18	4	40
Schonfeld	13	2	28
Faris	4	2	10
Berg	3	0	6
Silkowitz	1	0	2
Osborne	1	0	2
Bakum	1	0	2

Colonials

(Continued from page 5)

men to a few baskets. They were not successful in denting the net with regularity, but continued the classy floor play of the varsity.

In the Mountaineer fray, the varsity was pitching in shots from all angles. Every member of the squad joined in the fracas, with Goldfaden and Milt Schonfeld having 11 and 10 points respectively, heading the scoring.

The reserves played the better half of the game as a unit, and made a poor showing, showing nothing in the way of an offense, and often losing their footing. They did, however, maintain the close defensive play characteristic of G. W. fives.

Essay Contest Offers Trips

Two-Week All-Expense Tour to New York and $100 Is First Prize

A two-week, all-expense trip to New York and $100 awaits the undergraduate who writes the best essay on one of these topics: "Does New York represent the American scene?", "Is New York a vital part of my culture?", and "Is New York a place to lauch a career?"

Cash awards of $25 and $15 and a week's, all-expense stay in New York are the second and third prizes, respectively.

An entry blank, obtained from The Panhellenic House Association, Beekman Tower, 3 Mitchell Place, New York City, must accompany each essay.

The basis on which the essay will be judged will be literary value, 50 per cent; originality, 25 per cent; and composition, 25 per cent. Essays must be not more than 1,000 words and must be sent in by March 31, 1937.

These prizes are offered by the Essay Contest Committee of the Panhellenic House Association as a feature of the winter program to maintain the link between the fraternity women of the Association and the college undergraduates.

Last year Emma Young of Intermountain Union College won first prize.

Prizes are open to all college undergraduates.

CIRCLE THEATRE
Pennsylvania Avenue at Twenty-first Street
WEST 0953

Tues. and Wed.—"Pennies From Heaven," starring Bing Crosby, Madge Evans with Louis Armstrong and his band. Here's a grand and glorious fun-show and Bing at his best!

Thurs. and Fri.—"Tarzan Escapes." Johnny Weissmuller, Maureen O'Sullivan. A jungle thriller—Adventure supreme!

Saturday—"White Hunter." Warner Baxter, June Lang, Alison Skipworth. The two who thrilled you in "Road to Glory" in a greater, more amazing adventure!

Sun. and Mon.—"Theodora Goes Wild." Melvyn Douglas, Irene Dunne. The fastest, gayest comedy in years. Superbly acted.

Just the good things...

and here they are...

Aromatic tobaccos from the districts of Xanthi, Cavalla, Smyrna and Samsoun in Turkey and Greece, the tobaccos of richest aroma

...blended with

Mild ripe home-grown tobaccos—Bright tobacco from the Carolinas, Georgia and Virginia; Burley tobacco from Kentucky and Tennessee; and tobacco from southern Maryland

...and rolled in

Champagne Cigarette paper of the finest quality. This paper, specially made for Chesterfield cigarettes, is pure and burns without taste or odor.

For the good things smoking can give you.. *Enjoy Chesterfields*
